## CARRIER OBJECTIVE

---

To secure a position in an organization that fosters an environment of continuous learning and professional development. I aim to enhance my skills and knowledge while contributing to the organization's goals. My goal is to grow alongside the organization, making meaningful contributions that align with its objectives and vision for success.

## EDUCATION

---

<b>KL UNIVERSITY</b>	2025 - Present
Btech in Electronics and Communication Engineering	
<b>Sri Chaitanya junior college</b>	2021
12th	
<b>Shanthi Nikethan High School</b>	2019
10th	

## PROJECTS

---

### Smart Helmet

The Smart Helmet integrates various electronic components to enhance safety. I collaborated with five team members, focusing on sensor integration, communication systems, and user interface design. Our combined efforts aimed to create a comprehensive safety solution. This experience showcases my teamwork skills and contribution to innovative projects.

### Obstacle Avoiding Robot

The Obstacle Avoiding Robot integrates electronic components to enhance safety and navigation. I collaborated with five team members, focusing on sensor integration, motor control, and programming. Our goal was to develop a robot that autonomously navigates while avoiding obstacles. This experience showcases my teamwork skills and contributions to innovative projects.

## TECHNICAL STRENGTHS

---

**Programming Languages:** C, Java basic, python basic

## SOFT SKILLS

---

- Teamwork
- Communication
- Problem-solving

## INTERNSHIP

---

### Ojas Innovative Technologies Private Limited

Internship

During my internship at Ojas Innovative Technologies, I worked as a data analyst, focusing on collecting, cleaning, and analyzing large datasets to identify trends. I utilized data visualization tools to present insights, aiding in informed decision-making. This experience enhanced my analytical skills and highlighted the importance of data in driving innovation.
